No observation

Instead of being limited only to theoretical book) knowledge,more emphasis should be given to practical workshops ,lab sessions and field trips related to the subject, so that students can understand their application in the real world.

Enhance partical learning integrated modern technology encourage regular feedback and interaction

Very well

2 year

Fair internal marks

Oral test and learning

Great education

Do more practical work

Practical skills

Two-Way Feedback and Communication  
Active Learning and Student Engagement  
Professional Development for Teachers

Good experience

No problem

Everything is good.

All was good

Mam bhout acha study karvati hai

\*\* To emphasize on experiential learning and participative learning among the students.

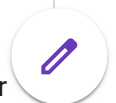

\*\*To emphasize on skill based learning and to motivate entrepreneurship amongst the students.

\*\* Engage students in administrative and academic processes of the institution.

Learning skill reading and testing

Communication and learning,active learning, practical application

1. Teachers should treat students kindly and with empathy. They should behave like mentors or guardians, listen to students carefully, and help in solving their problems.

2. Teachers should use more practical examples and make classes interactive to improve understanding.

3. There should be extra classes or doubt sessions to help students clear their doubts effectively.

All Good

To improve the teaching learning experience increase hand on practical session and integrate more interactive digital tools into the curriculum

Smart class,

Introduce more interactive and practical teaching methods such as discussions, case studies, and hands-on activities instead of only lectures.

2. Improve classroom facilities and learning resources, including better Wi-Fi, updated labs, library materials, and smart classrooms.

3. Provide regular feedback and mentoring for students through doubt-clearing sessions, counseling, and timely evaluation of assignments/exams.

Teachers must fair in internal assessment

Not to cut marks for writing

1. Make learning easy with real life example and more practical work

2. Should try to teach practically because student don't like to learn more theoretical concepts.

3. Transform education from a pressure into an opportunity for students, so that they use it to sharpen their skills rather than just memorizing facts.

Acha h phle he

Good ,communication, Good learning

Give to homework and learning to homework

1. Improve teaching methods, 2. Clear students doubt regularly. 3. Enhance classroom facilities.

Improvement water facility, improve computer facility,

Improve cleanliness, enhance digitalization

My institute teacher's very good

Lectures can short

1. Multimedia,
2. Her vishy pr charcha ,
3. Discuss fo assignment ,
4. All students present in class

Adopt active, student centre methods like interactive discussion experiential learning and practical application.

More interactive and participative learning method .  
 . Doubtful clearing session

Always teacher teacher in my class,very good performance and help over students

Implement Active and Experiential Learning: Move beyond traditional lectures by incorporating case studies, group projects, and practical, hands-on experiences to enhance understanding and engagement.Enhance ICT and Visual Engagement: Utilize advanced ICT tools, better graphics, and multimedia presentations to make complex concepts more accessible and engaging.Foster Two-Way Communication & Feedback: Actively solicit student feedback on teaching methods and ensure a collaborative atmosphere where students feel encouraged to ask questions and discuss their doubts.

Give examples in real life related  
 To give more chance for poor student in other activities  
 To give equality all student

I respect my teacher and appreciate their efforts, but I would like some improvements. I want my teacher to make classes more interactive and interesting.

Increase in cleanliness,

Make lecture duration short

Regular feedback  
 More use of ICT tools

1. Positive classroom environment
- 2.Regularly feedback from students
3. Parents involvement

Technology integration  
 Practical explore

Increase more study, regular competitive exam classes, increasing communication skills

The teacher teach the concept with example and application

One should talk to the children calmly and understand them and should not put pressure on the children. One should make them understand but should not listen to them and then draw any conclusion. One should not put pressure of writer work on the children, their learning skills should be enhanced.

I think teachers should interact more with students in the classroom and for teaching they should use digital resources, because it is very effective to learn and understand things in easy way.

My suggestions teachers provide smart classroom projectors and digital tools.

Maintainance

To a great extent

More practical examples , smart classes, provide better infrastructure,

Digital Support.

Nothing to change all good

Teaching should be more interactive, college facilities should be improved, and more workshops and career guidance should be provided for students.

Teacher are best their teaching skills are excellent

Jsjdj

More use of ICT tools and practical demonstrations in class.  
Regular doubt- clearing sessions and interactive activities.  
Organising workshops, seminars and skill based training program.

Adopt learning strategies, provide professional development for teachers on ict tools and create robust feedback mechanism

- 1.Discussion with students
- 2.Always supportive
- 3.Discuss on ai and other such serious topics.

Very good experience

Integrate interactive technology provide timely and detailed feedback focus on practical

application

1. Make teaching more interactive.
2. Give regular feedback to students.
3. Improve classroom facilities and technology.

Teacher's regular feedback dein aur students ki doubts clear Karna Ke liya extra classes ho

Good environment,all facilities and teachers hard working.

Integrated active learning

Strengthen feedback loops

Enhance digital infrastructure

- Encourage students to participate research and innovation.
- Build stronger students support and feedback systems.
- Effective time management in classes.

Improvement in cleanliness ,  
Increase the use of कंप्यूटर,

Intengelt

Use of technology, and make interactive in class

Teacher fully friendly hone chiye, teacher ko student ki situation me help krna chiye or sbhi students ko ek sath लेकर chlna chiye or teacher ko class me guide ya notes ke bina padhana chiye

Provide to regularly feedback and guidance to students.

Placement opportunities, smart class rooms, helps in career planning

Nice clg

Quality of teachers learning program is very effective

Encourage regular feedback from student and organize workshops

1. Use of smart technology
2. interactive teaching methods
